"Architecture should speak of its time and place, but yearn for timelessness." – Frank Gehry

MOHAMMED JASHIM

Introduction

About Me

Innovative and results-oriented architect with a strong background in sustainable design and energy-efcient structures. Proven experience delivering high-quality projects in collaboration with top-tier organizations, including RTA and Dubai Customs. Adept at managing all phases of architectural design, from concept development to fnal execution, with a focus on exceeding client expectations and adhering to strict regulatory standards. Excels in space planning, technical design, and cross-functional team leadership.

About Portfolio

This portfolio highlights a diverse range of projects, including innovative designs for interior spaces, RTA infrastructure, Dubai Customs, and Dubai Ambulance events, as well as bespoke villas and event projects. Each work reflects a commitment to blending creativity with functionality, delivering tailored solutions that meet client needs. Detailed working drawings further showcase technical expertise and the ability to bring visionary designs to life, emphasizing a versatile and dynamic approach to architecture and design.

My Vision & Mission

My Vision

To design innovative and timeless spaces that inspire, connect, and enrich lives, while contributing to sustainable and dynamic urban environments.

My Mission

To create functional, aesthetically pleasing, and client-focused architectural solutions that balance creativity with practicality. By prioritizing collaboration, technical precision, and sustainability, I aim to deliver designs that enhance communities and exceed expectations across diverse projects.

Content.

RTA Projects

Contributed to Roads and Transport Authority (RTA) projects by designing innovative and sustainable solutions that enhanced infrastructure and urban mobility while meeting functional and aesthetic standards.

Residence

Worked on several villa designs, creating functional, aesthetic, and personalized spaces tailored to clients' needs and lifestyles.

Interior Designs

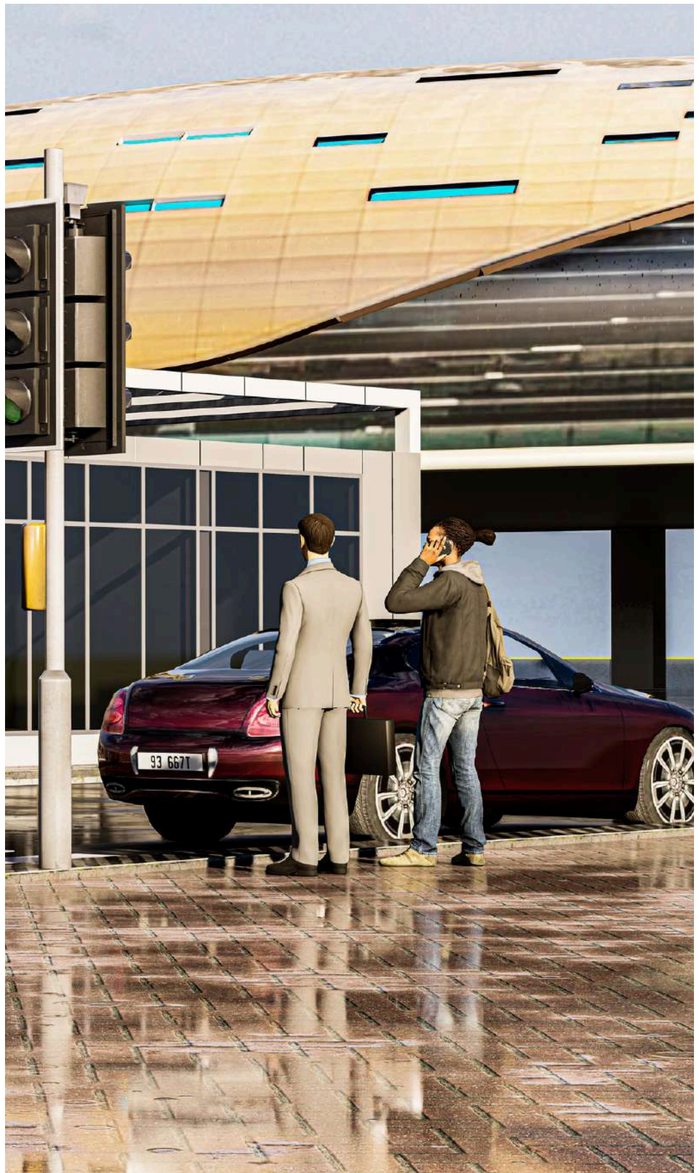

Engaged in designing interior spaces for residential and commercial projects, focusing on innovative solutions that blend functionality with visual appeal.

Events and camps

Collaborated with Dubai Customs and Dubai Ambulance on event designs, delivering creative and impactful solutions for various occasions.

RTA Projects

01. Solely managed the design of an RTA bus station portacabins, overseeing all stages from concept to completion with a professional and detail-oriented approach

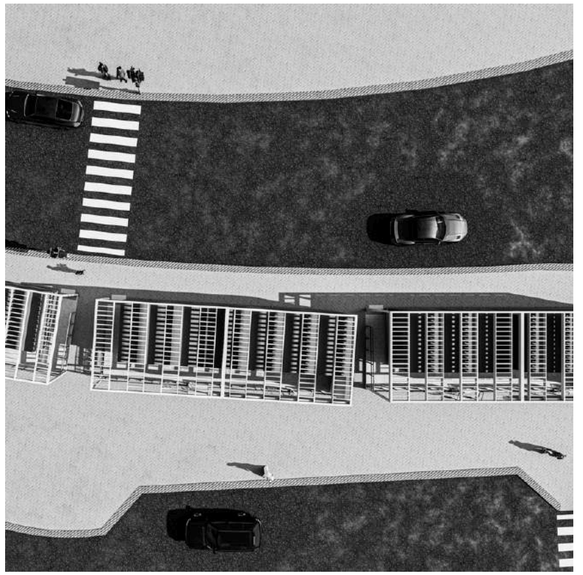

02. Contributed to various stages of design and development for diverse types of bus shelters, ensuring functionality, durability, and alignment with project requirements.

01. RTA PORTA CABINS

The Porta Cabin Bus Station has been strategically designed and implemented in diverse locations, including Silicon Oasis, Stadium Bus Station, and Business Bay. These modular, prefabricated structures are tailored to blend seamlessly with their urban surroundings while addressing the unique demands of each site. Emphasizing efficiency, accessibility, and sustainability, the design ensures a cohesive yet context-sensitive architectural solution that enhances the public transportation experience.

ABOUT

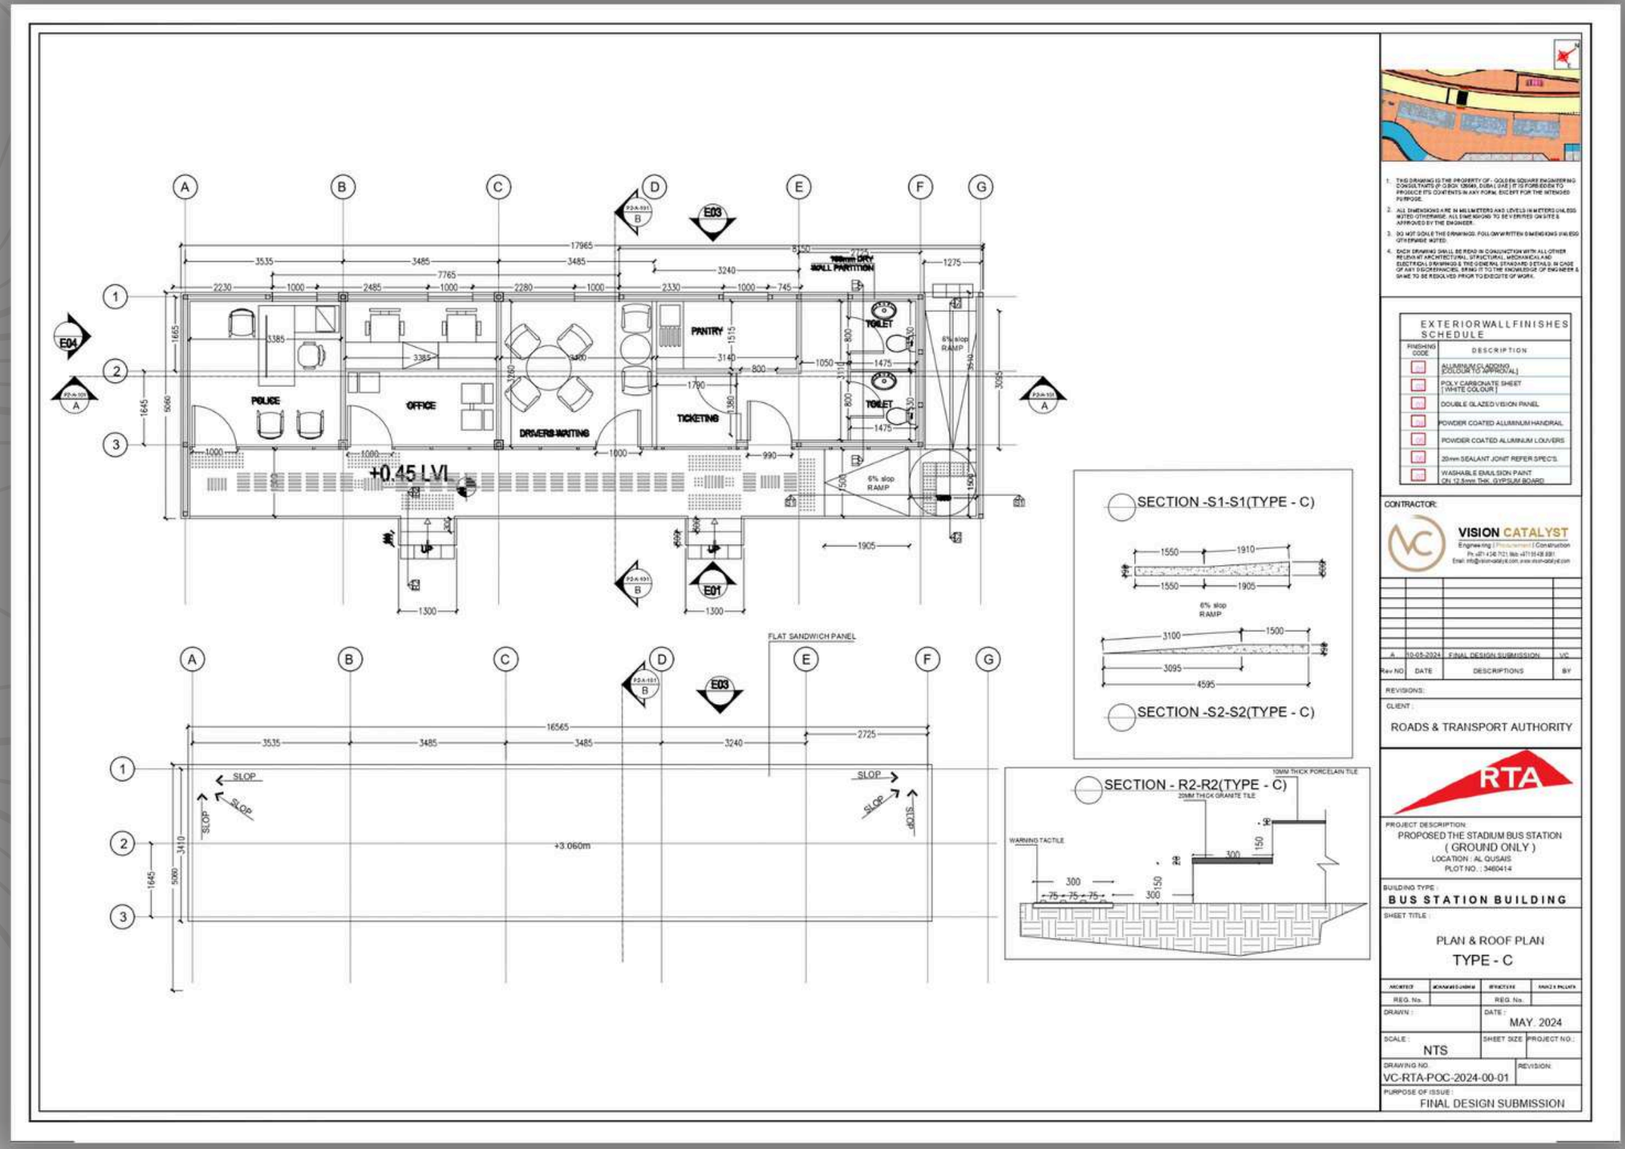

The Porta Cabin Bus Station design merges functionality with a sleek, modern aesthetic. The project centers around modular, prefabricated units for quick assembly and adaptability to diverse urban and rural contexts. Sustainable materials and energy-efficient solutions, such as solar panels and natural ventilation, were integral to the concept. Thoughtful spatial organization prioritizes passenger comfort, ease of movement, and accessibility. The design reflects an architectural response to practicality while maintaining an inviting and innovative visual language.

01. RTA BUS SHELTERS

The Porta Cabin Bus Station has been strategically designed and implemented in diverse locations, including Silicon Oasis, Stadium Bus Station, and Business Bay. These modular, prefabricated structures are tailored to blend seamlessly with their urban surroundings while addressing the unique demands of each site. Emphasizing efficiency, accessibility, and sustainability, the design ensures a cohesive yet context-sensitive architectural solution that enhances the public transportation experience.

01.Residence Projects

ABOUT

Contributing to the design of several villas, each project blends functionality, luxury, and aesthetics. By combining thoughtful planning, modern materials, and sustainability, the designs create efficient, visually appealing spaces tailored to client needs and harmonized with the environment.

Modern luxury design merges sleek aesthetics with high-quality materials, crafting a sophisticated and inviting environment. The space offers a perfect balance of exclusivity and comfort, where every element is thoughtfully designed.

Contemporary luxury design combines minimalist elegance with premium materials, creating a refined, modern atmosphere. Every detail enhances the space, offering both exclusivity and comfort.

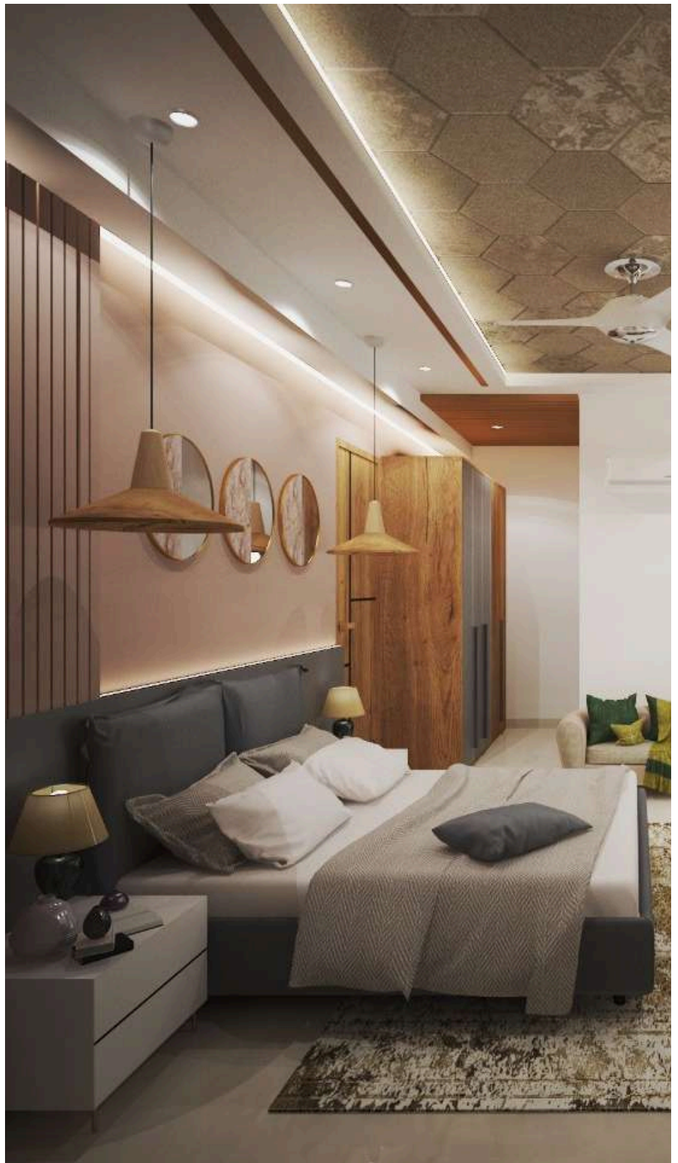

Modern luxury design seamlessly integrates innovative aesthetics with premium materials and advanced technology, crafting environments that embody both style and comfort. The overall atmosphere is one of quiet opulence, where each element is thoughtfully designed to create an exclusive yet inviting space that reflects the essence of contemporary living

Contemporary luxury design blends sleek, modern aesthetics with refined materials and cutting-edge technology to create spaces that exude sophistication and comfort. The ambiance is one of understated elegance, where every detail is carefully curated to evoke a sense of exclusivity while maintaining a seamless connection to modern living.

Interior design

ABOUT

Experienced in a range of interior design projects in both residential and commercial sectors, the focus is on creating functional, aesthetically pleasing spaces tailored to the unique needs and preferences of each client. The approach combines modern design principles with timeless elements, ensuring practical, visually cohesive environments. The best design style emphasizes a balance of simplicity, elegance, and comfort—incorporating clean lines, natural materials, and harmonious color palettes. This creates inviting, sophisticated spaces that remain adaptable to the evolving needs of their inhabitants.

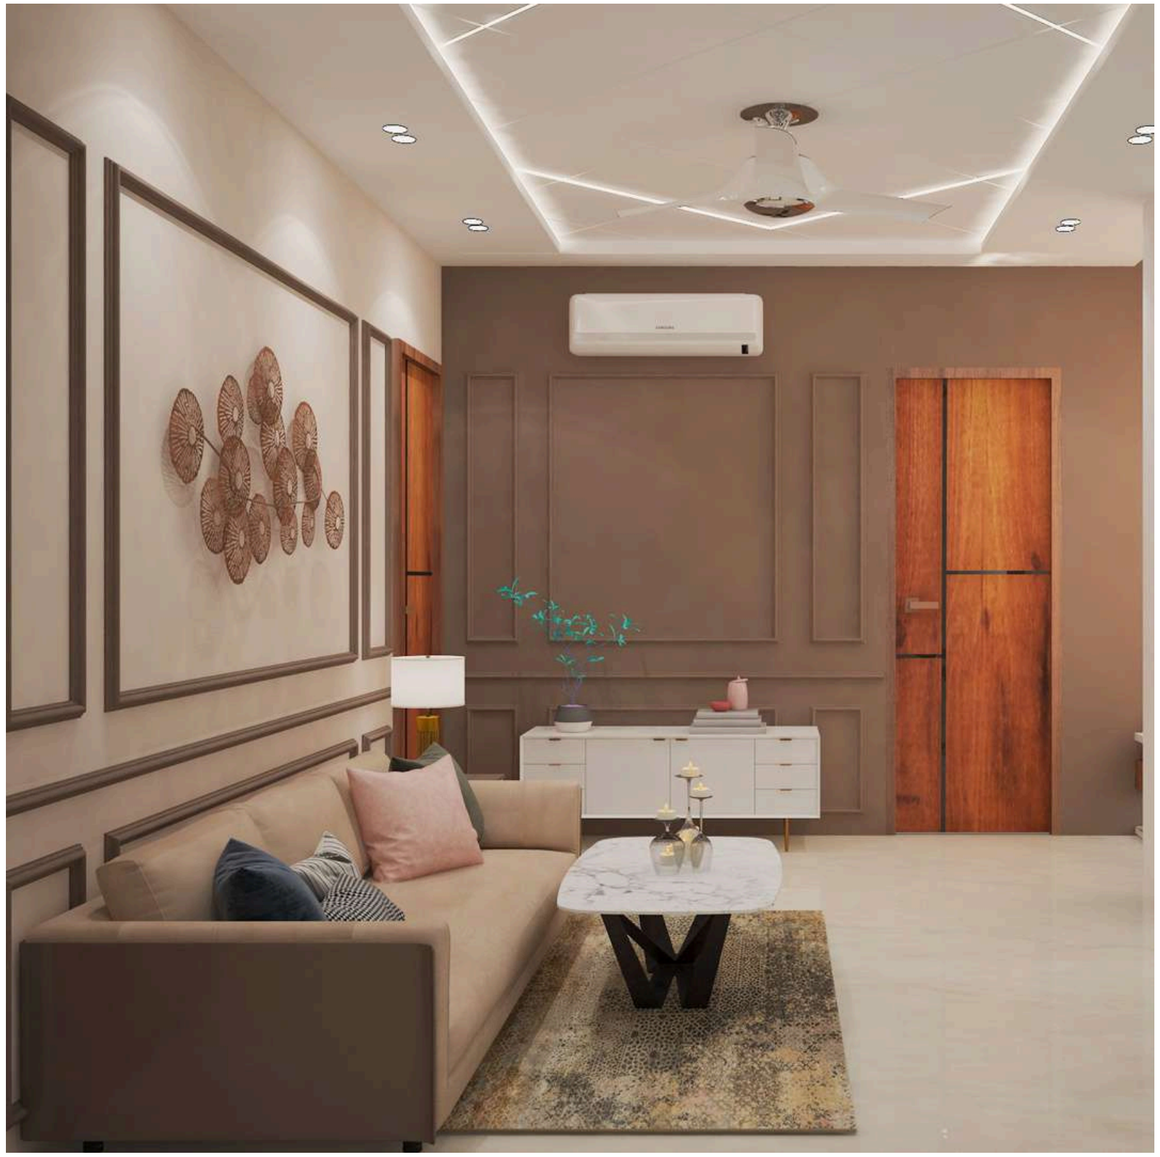

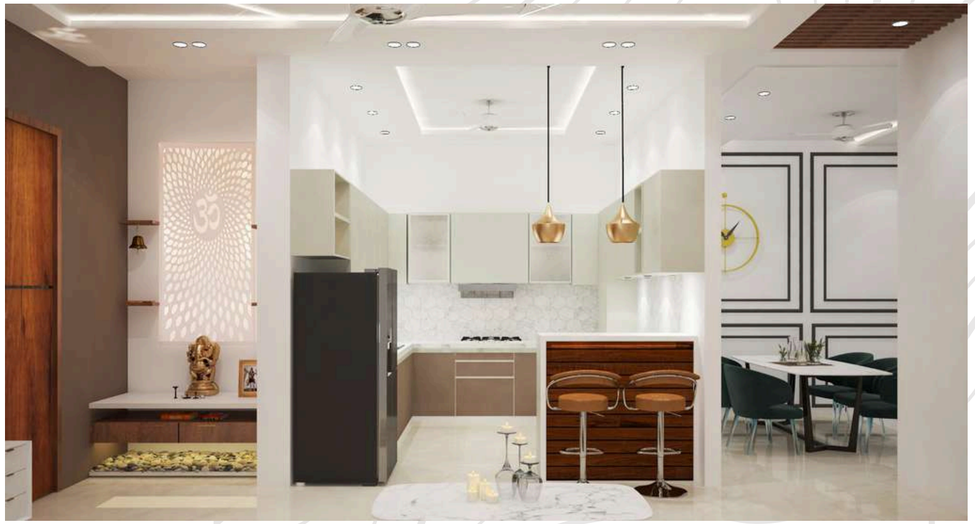

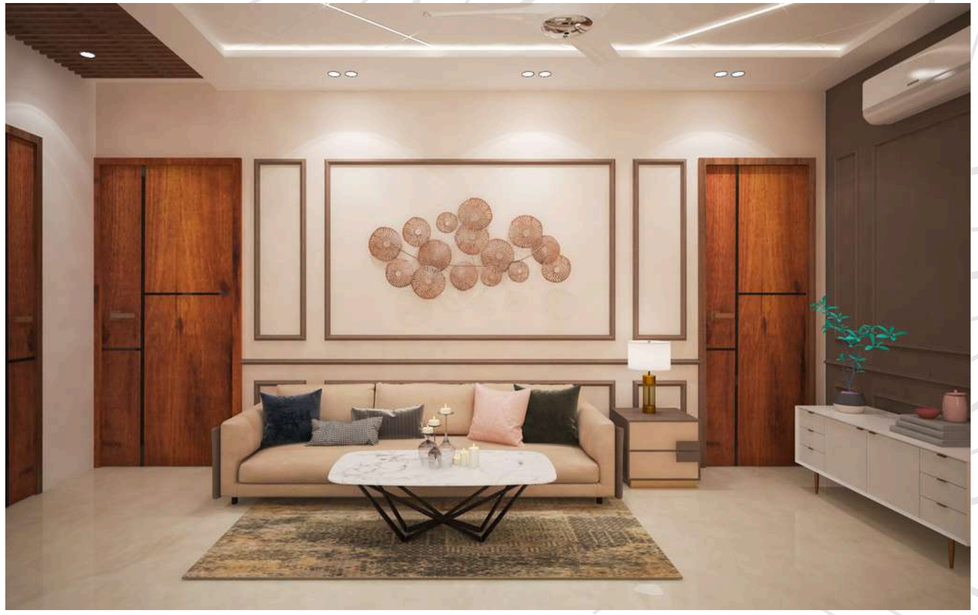

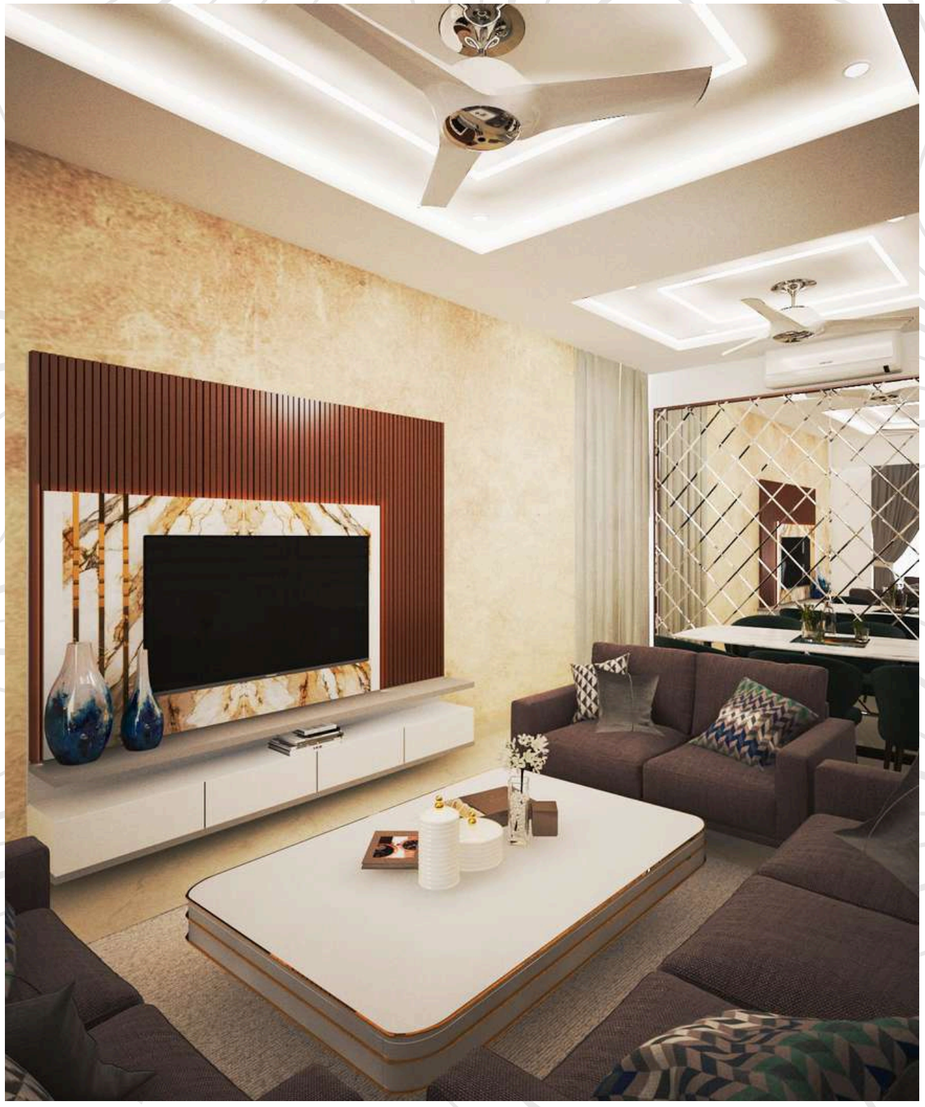

natural lighting is essential for enhancing the spatial experience, as it not only illuminates but also breathes life into the interior. It plays a pivotal role in shaping the ambiance, fostering a connection between the indoor environment and the natural world outside.

Incorporating greenery into balcony design creates a serene, refreshing space. Using plants like potted greenery, vertical gardens, or hanging planters, the balcony becomes a lush retreat. Greenery enhances aesthetics, improves air quality, and adds a tranquil atmosphere, complemented by natural materials, soft lighting, and comfortable seating.

Events & Camps

01. collaborated with Dubai Customs in designing a winter camp, focusing on functionality, comfort, and sustainability. The project involved creating efficient, aesthetically appealing spaces that met the specific needs of the camp, ensuring a practical and welcoming environment for its users.

02. designed events for Dubai Ambulance, prioritizing efficiency, safety, and functionality. The design was tailored to meet their needs, creating a seamless, professional atmosphere aligned with their objectives.

03. I designed the stage and event for Dubai Silicon Oasis (DSO), focusing on creating a functional, visually appealing space that seamlessly integrated with the event's objectives and atmosphere.

01. DUBAI CUSTOMS WINTER CAMP

The Dubai Customs Winter Camp was designed to accommodate a variety of activities, with a focus on flexibility and functionality. The design embraced vernacular architectural elements, incorporating traditional styles and materials to create a unique, culturally resonant space. This approach ensured the camp was both practical and visually cohesive, offering an inviting and adaptable environment for diverse uses.

3D layout providing a detailed representation of the spatial arrangement, illustrating the precise locations of various activities.

This camp is designed using vernacular materials and vintage style, creating an ambiance that deeply connects with nature and enhances the natural surroundings.

01. DUBAI AMBULANCE Exhibition Showcase

I designed the exhibition event for Dubai Ambulance, focusing on creating an engaging and informative space that highlighted their services and initiatives. The design prioritized functionality and visitor interaction, ensuring a seamless flow and professional atmosphere while effectively showcasing Dubai Ambulance's mission and capabilities.

01.Dubai Silicon Oasis (DSO) Events

I designed the stage and event for Dubai Silicon Oasis (DSO), focusing on functionality and visual appeal. The layout ensured seamless flow, with the stage strategically designed to highlight key moments using advanced technology and lighting. The surrounding space was crafted to promote interaction and complement the event's objectives, creating a dynamic, cohesive environment that reflected DSO's innovative image.

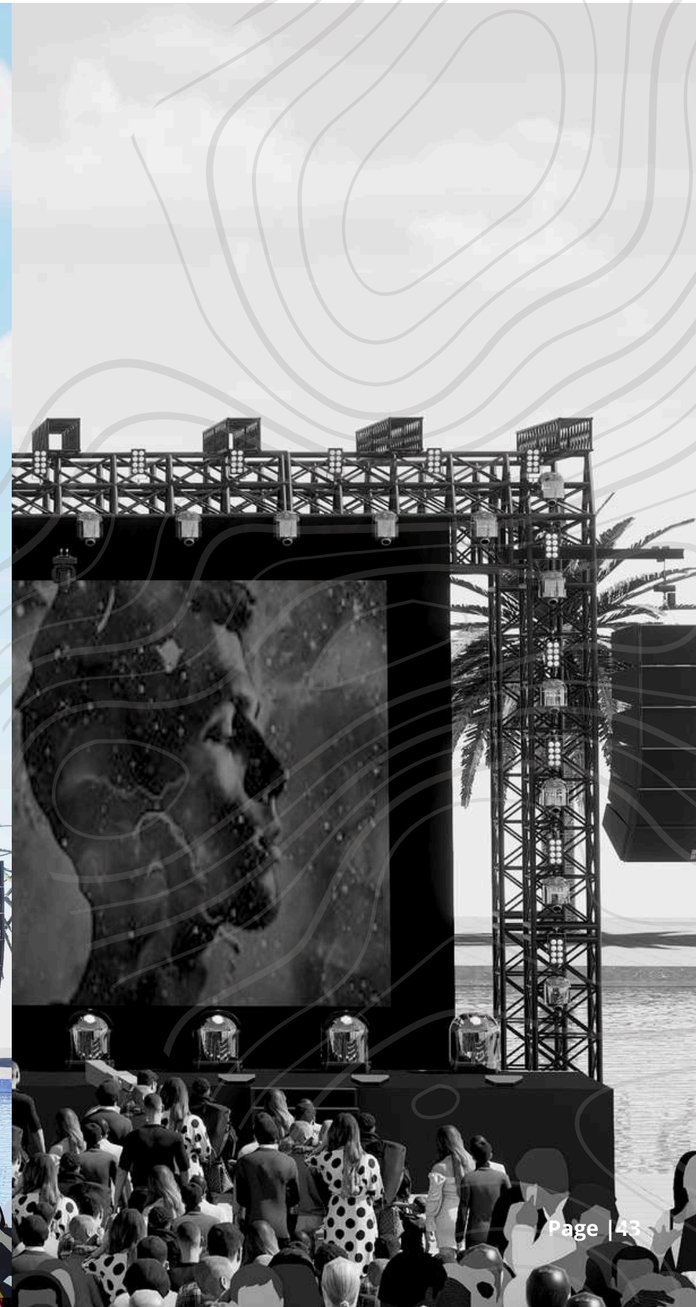

-"A concert is a convergence of artistry and emotion, where the performer's craft and the audience's engagement create a transformative experience beyond mere entertainment."

Thank You

Thank you for taking the time to explore my profile. Moving forward, my architectural ideas will continue to focus on innovation, sustainability, and functionality. I aim to create spaces that not only meet the practical needs of users but also enhance their experiences through thoughtful design and a deep respect for the environment. My approach will embrace cutting-edge technologies, sustainable materials, and an ever-evolving design philosophy that reflects the dynamic needs of the modern world.
