"Architecture should speak of its time and place, but yearn for timelessness." – Frank Gehry

MOHAMMED JASHIM

Introduction

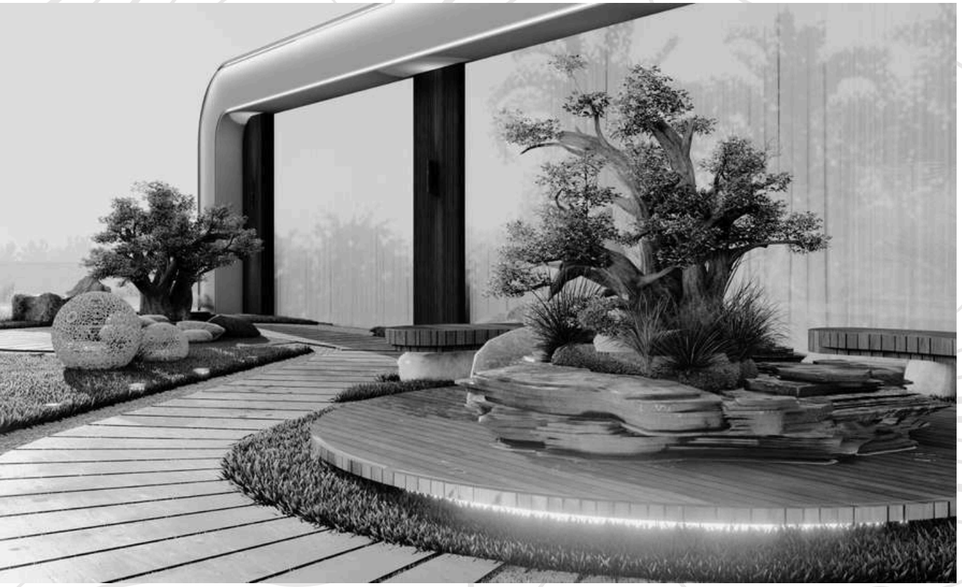

About Me

Innovative and results-oriented architect with a strong background in sustainable design and energy-efcient structures. Proven experience delivering high-quality projects in collaboration with top-tier organizations, including RTA and Dubai Customs. Adept at managing all phases of architectural design, from concept development to fnal execution, with a focus on exceeding client expectations and adhering to strict regulatory standards. Excels in space planning, technical design, and cross-functional team leadership.

About Portfolio

This collection showcases a curated selection of high-end residential landscape and luxury swimming pool developments. Each project reflects a seamless synthesis of architecture, nature, and lifestyle—transforming expansive villa grounds into private, elevated sanctuaries. From architectural waterscapes and resort-style pools to sculpted gardens and custom outdoor living spaces, these designs prioritize spatial harmony, refined materials, and timeless elegance. Every detail is crafted to complement the surrounding architecture while enhancing the outdoor living experience.

My Vision & Mission

My Vision

To design innovative and timeless spaces that inspire, connect, and enrich lives, while contributing to sustainable and dynamic urban environments.

My Mission

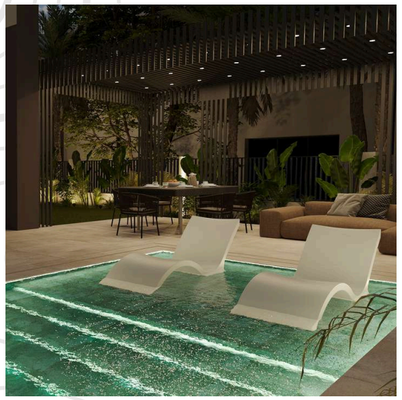

To create functional, aesthetically pleasing, and client-focused architectural solutions that balance creativity with practicality. By prioritizing collaboration, technical precision, and sustainability, I aim to deliver designs that enhance communities and exceed expectations across diverse projects.

MBR City

Located in MBR City, Dubai, this Villa 11 landscape and swimming pool design emphasizes clean, minimalist lines and natural textures. Thoughtful planting and quiet waterscapes come together to deliver an effortless, serene outdoor retreat.

SIDRA 320

Located in Sidra, Dubai Hills, this villa features a linear two-side overflow pool with submerged sun loungers alongside an open-slat louvered pergola for dining and lounging. The surrounding landscape pairs lush perimeter foliage with distinct, wide-slab organic stepping pathways set into green lawns for an effortless outdoor flow.

JUMEIRAH PARK 32

Designed for Villa G 32 in Jumeirah Park, this landscape integrates a sunken lounge featuring a central fire pit encircled by a surrounding pool feature, accented by architectural stepping pathways set into green lawns. Complete with a private pool deck, outdoor shower, and dedicated basketball court, the layout balances active recreation with luxurious outdoor relaxation.

18 HILL CREST, DUBAI HILLS

Designed for 18 Hill Crest, this modern landscape integrates a dedicated outdoor living layout centered around a raised wooden deck with woven lounge seating and an adjacent green turf lawn. The rear yard transitions into a geometric swimming pool with a built-in Jacuzzi, framed by a dark stone water wall, gravel-set stepping paths, and dense perimeter hedging for complete privacy.

BARSHA VILLA

This landscape design for the Al Barsha Villa creates a seamless harmony between the Ground Floor Zen Garden and the Basement Sunken Courtyard. Designed with a refined Japanese-minimalist aesthetic, the project combines sculptural organic elements, warm timber finishes, natural slate, and integrated LED illumination to create an inviting outdoor experience across both levels.

SIDRA 23

The Sidra-23 landscape design creates a resort-style residential sanctuary. By combining geometric hardscaping, lush tropical greenery, modern water features, and outdoor entertainment zones, this layout maximizes both aesthetic appeal and practical outdoor living functionality.

MAJESTIC VISTAS

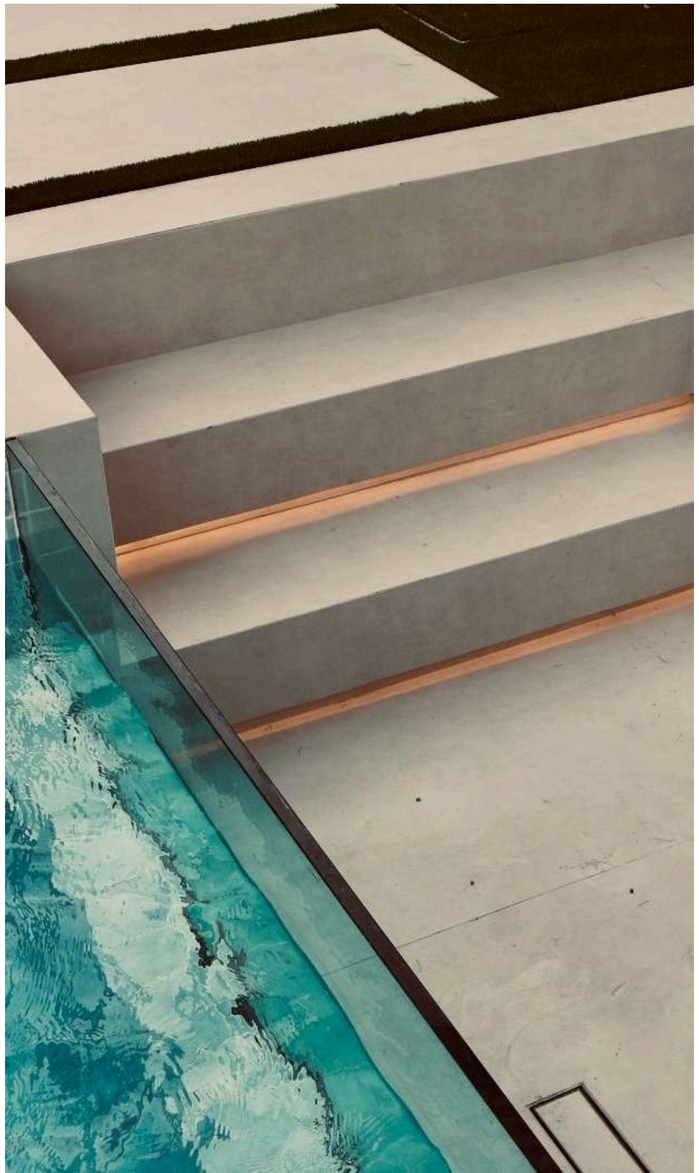

This design concept showcases an ultra-modern, resort-inspired outdoor living space that seamlessly integrates high-end aquatic architecture, contemporary hardscaping, and sculpted greenery. Designed to complement the clean geometry of the contemporary villa, the layout offers an immersive aquatic environment featuring a unique floating walkway, integrated sunken seating, and bespoke mosaic artwork.

HATTAN 3

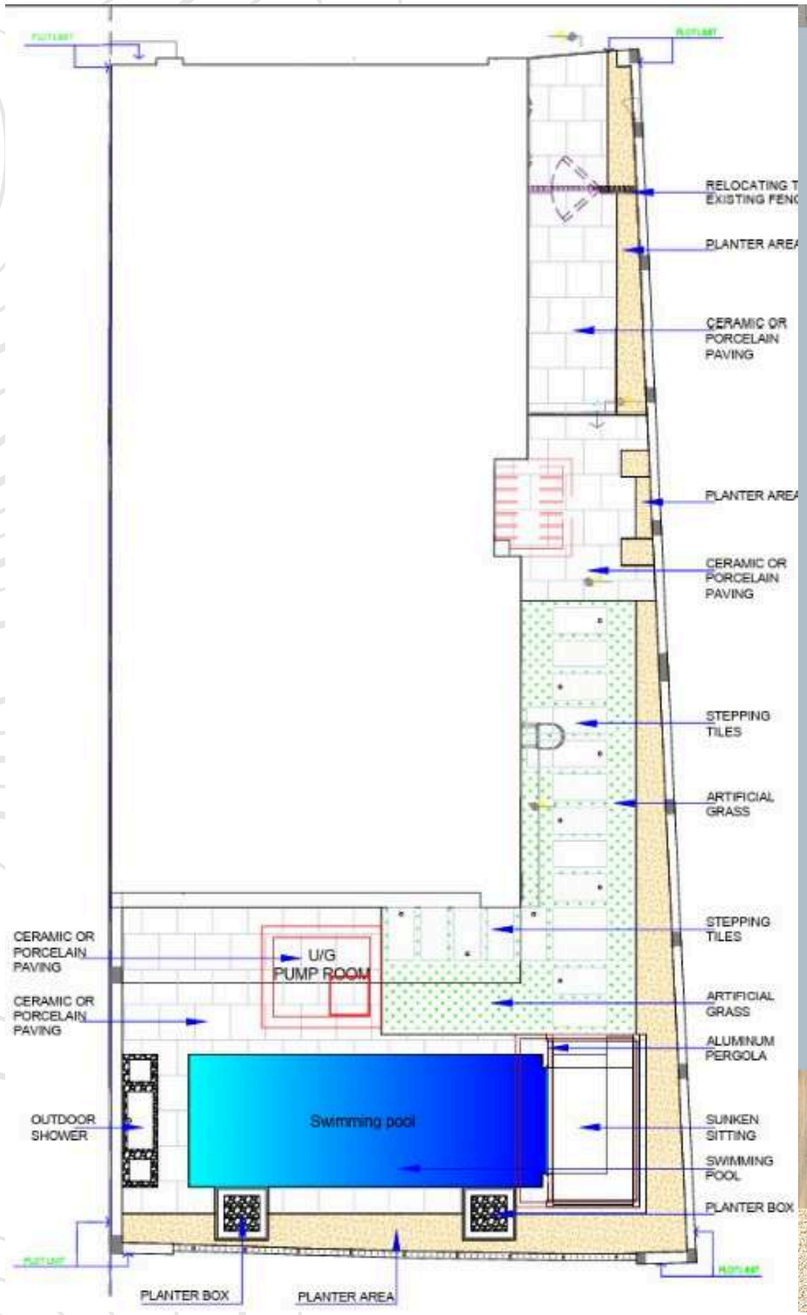

This design concept fuses Zen-inspired tranquility with modern Mediterranean architectural landscaping. Designed to offer a peaceful outdoor retreat, the layout combines natural textured stone finishes, lush tropical softscaping, private outdoor amenities, and subtle artistic features that blend luxury with nature.

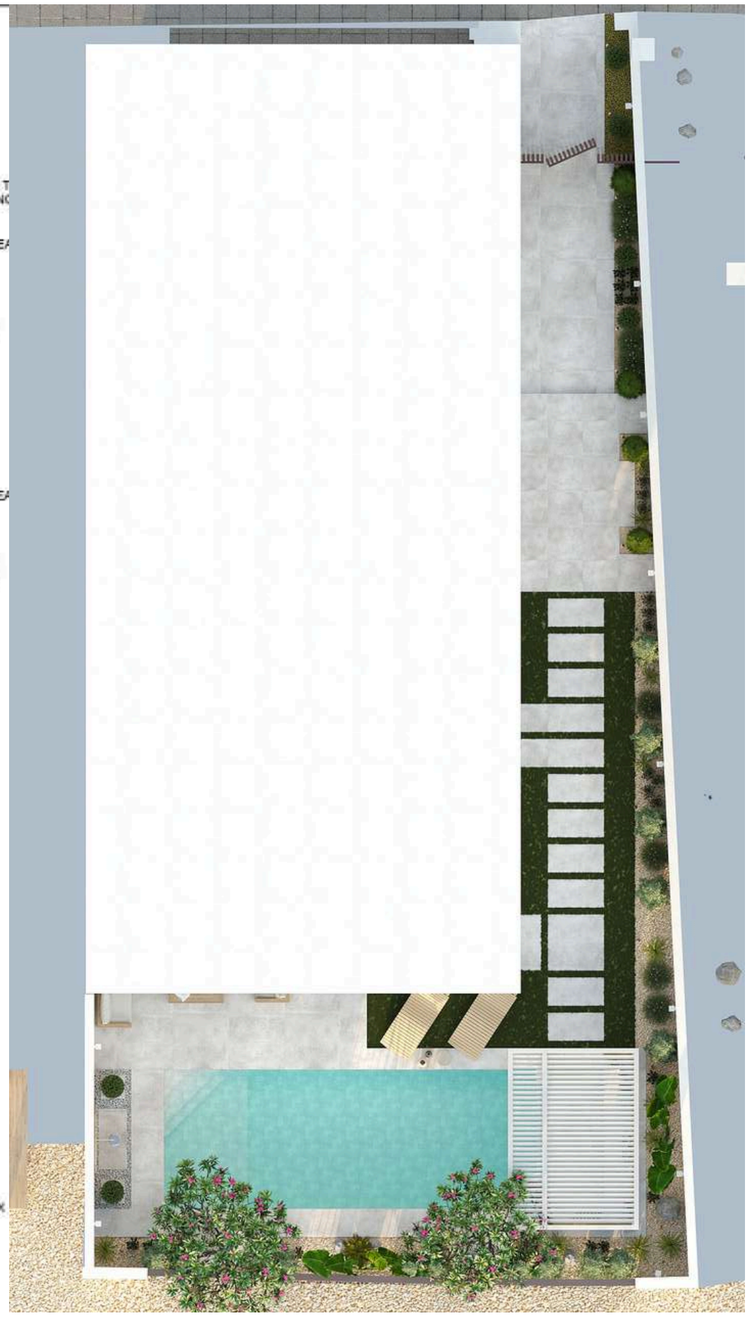

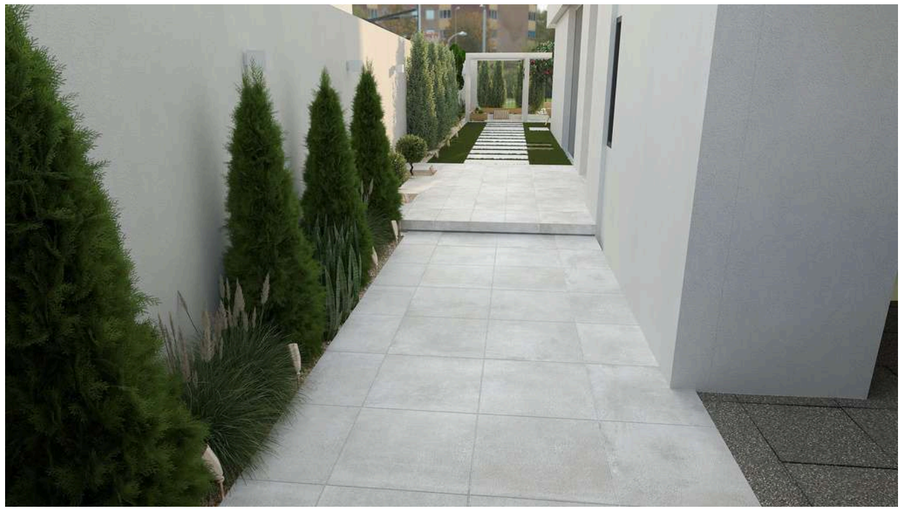

1.MBR City villa 11

MBR City Villa 11 — Nature-Oriented Luxury
Located in MBR City, Dubai, this Villa 11 project brings together clean minimalist lines and warm, natural textures to create a serene outdoor sanctuary. The design centers around a seamless connection between land and water, balancing low-profile architectural elements with organic planting.
The defining feature of the space is a custom sunken seating area set beneath a modern pergola, designed to offer an intimate, shade-sheltered lounge zone. Directly integrated with the swimming pool, the seating features a transparent acrylic glass wall—offering a captivating, see-through view into the pool's crystal-clear waters. Together with quiet waterscapes and lush green accents, the space delivers an effortless, resort-style retreat tailored for modern luxury living.

4.18 HILL CREST DUBAI

Created specifically for 18 Hill Crest in Dubai, this design blends contemporary lines with functional outdoor luxury. The main garden axis features a distinct division between relaxation and leisure: a warm wooden floor deck provides a welcoming lounge space overlooking a crisp turf lawn. Pathways of oversized stone slabs set into white river pebbles navigate the perimeter, guiding movement along the side of the villa straight to the private pool deck. The swimming pool area is equipped with an integrated Jacuzzi and a feature stone wall, while high perimeter hedges and strategic planter boxes ground the space in vibrant greenery.

5.BARSHA VILLA

Level-by-Level Design Overview
Ground Floor: Zen Garden & Sculpture Lounge
The ground floor area emphasizes tranquility, visual flow, and artistic framing:

- Sculptural Bonsai Focal Points: Elevated circular wood-deck platforms showcase mature, sculpted Olive/Bonsai trees set within multi-tiered slate rock beds and lush moss-like greenery.
- Curved Timber Pathway & Seating: A sweeping, wide wooden plank walkway gently curves around the garden, complemented by custom curved timber benches resting on raw stone bases.
- Atmospheric Lighting & Accents: Under-deck strip LEDs, soft ground spotlights, warm sconces, illuminated decorative lattice spheres, and traditional ceramic urn accents create a serene glow for nighttime viewing.

Basement Courtyard: Sunken Water Oasis
Transforming a subterranean corridor into a light-filled visual retreat, the basement layout centers around movement and water:

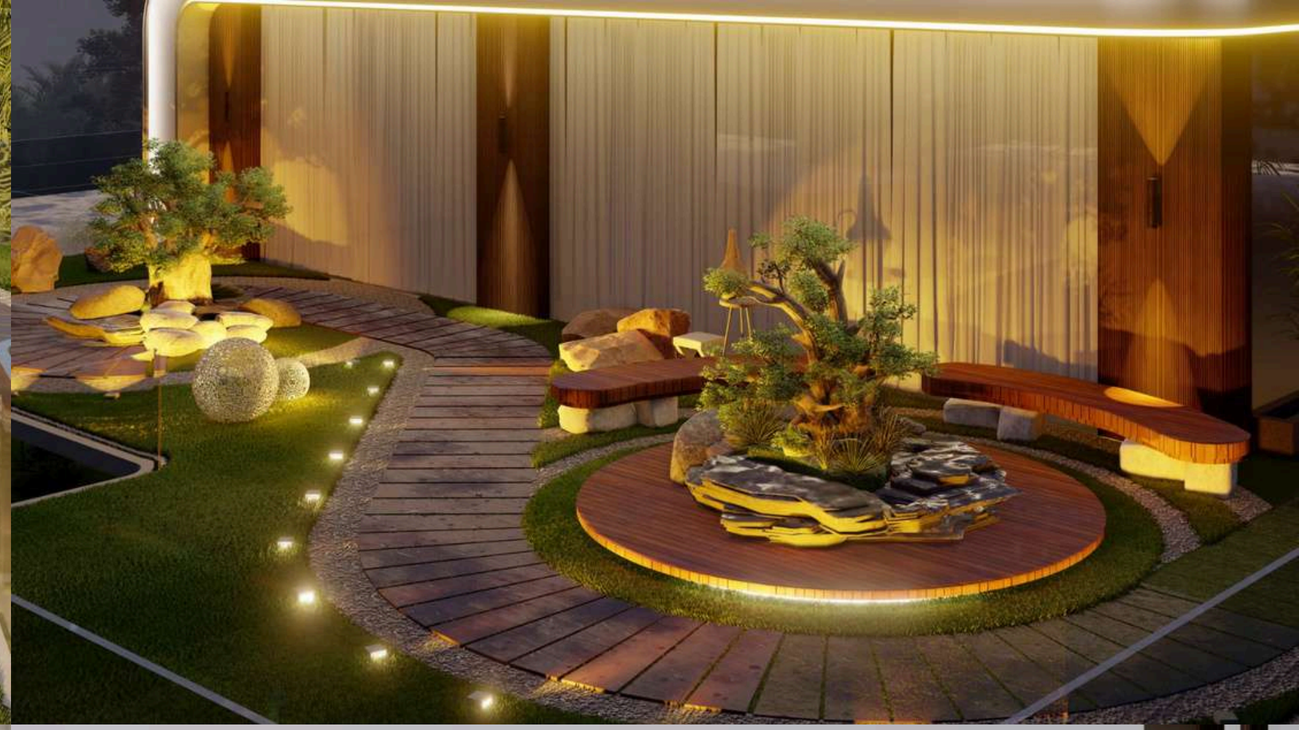

- Full-Height Water Feature: A towering vertical slate-stone water wall acts as the grand backdrop, sending a gentle cascade into the reflecting pool below to cool the air and soften acoustics.
- Floating Stepping Stone Pathway: Geometric stone stepping slabs hover over a clear shallow body of water, leading toward stepped, circular floating platforms with integrated perimeter lighting.
- Micro-Landscaping: Pocket garden beds feature tropical palms, grasses, rock outcroppings, and an ancient olive tree, contrasting soft natural foliage against the textured stone cladding of the courtyard walls.

Architectural Portfolio

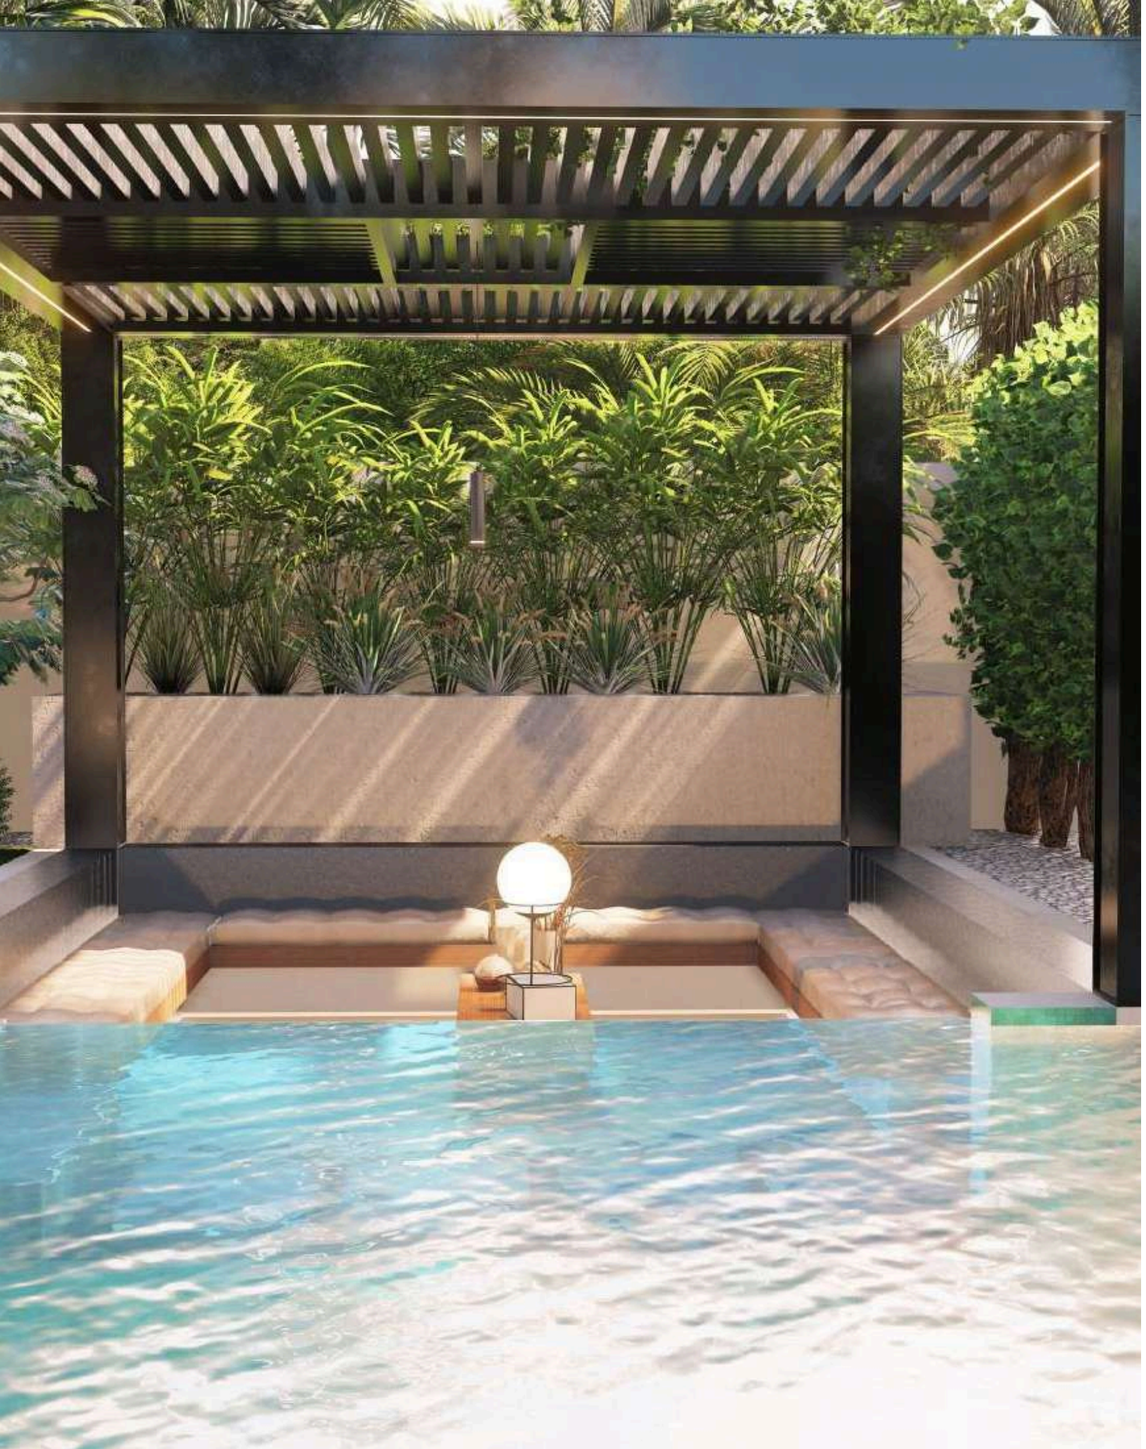

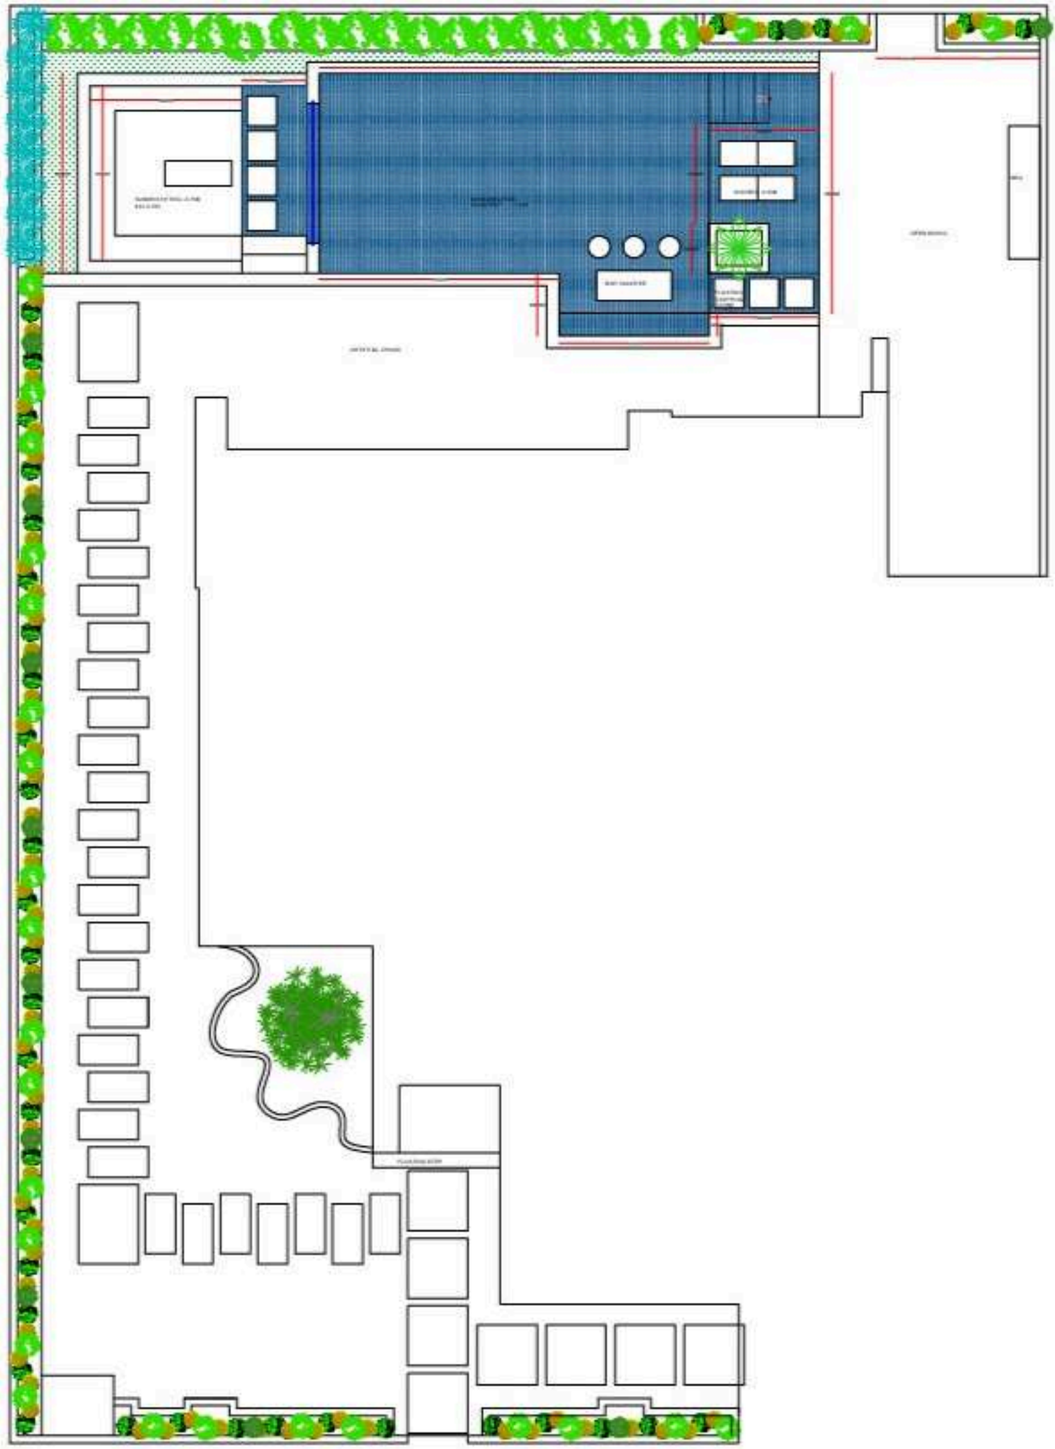

6.SIDRA 23

1. Modern Infinity Swimming Pool & Water Amenities
   - Sunken Seating Area: Integrated directly adjacent to the pool, featuring built-in bench seating, warm under-cushion LED lighting, a central coffee table, and an accent globe light fixture.
   - Glass Wall/Edge Detail: A transparent glass wall divider separates the sunken lounge from the main body of water, offering seamless views through the pool.
   - Swim-Up Bar Counter: Submerged stone bar stools paired with a floating counter top inside the shallow end for effortless poolside entertaining.
   - In-Pool Lounging: Dedicated sunbed ledge equipped with ergonomic in-water lounge chairs surrounded by a centered planter box island.
2. Architectural Structures & Hardscaping
   - Modern Black Pergola: Anchors the sunken sitting area, providing shade during the day and integrated strip lighting for evening ambiance.
   - Floating Stepping Stones: Oversized geometric concrete pavers set across turfed pathways and water channels, creating clean structural walkways throughout the garden.
   - Floating Entrance Steps: Elevated entrance steps illuminated with warm under-step LED strips leading up to the villa doorway.
3. Outdoor Kitchen & Amenities
   - Barbeque Unit: Custom outdoor kitchen counter featuring dark stone cladding, sleek cabinetry, an integrated sink with a gooseneck faucet, and a high-end built-in gas grill.
4. Softscaping & Lighting Strategy
   - Planting Palette: A mix of tropical palm trees, structured hedges along perimeter walls, low shrubs, and strategic planter boxes.
   - Illumination Design: Low-voltage landscape uplighting highlighting tree foliage, warm perimeter strip lights along steps and seating walls, and globe lighting accents.

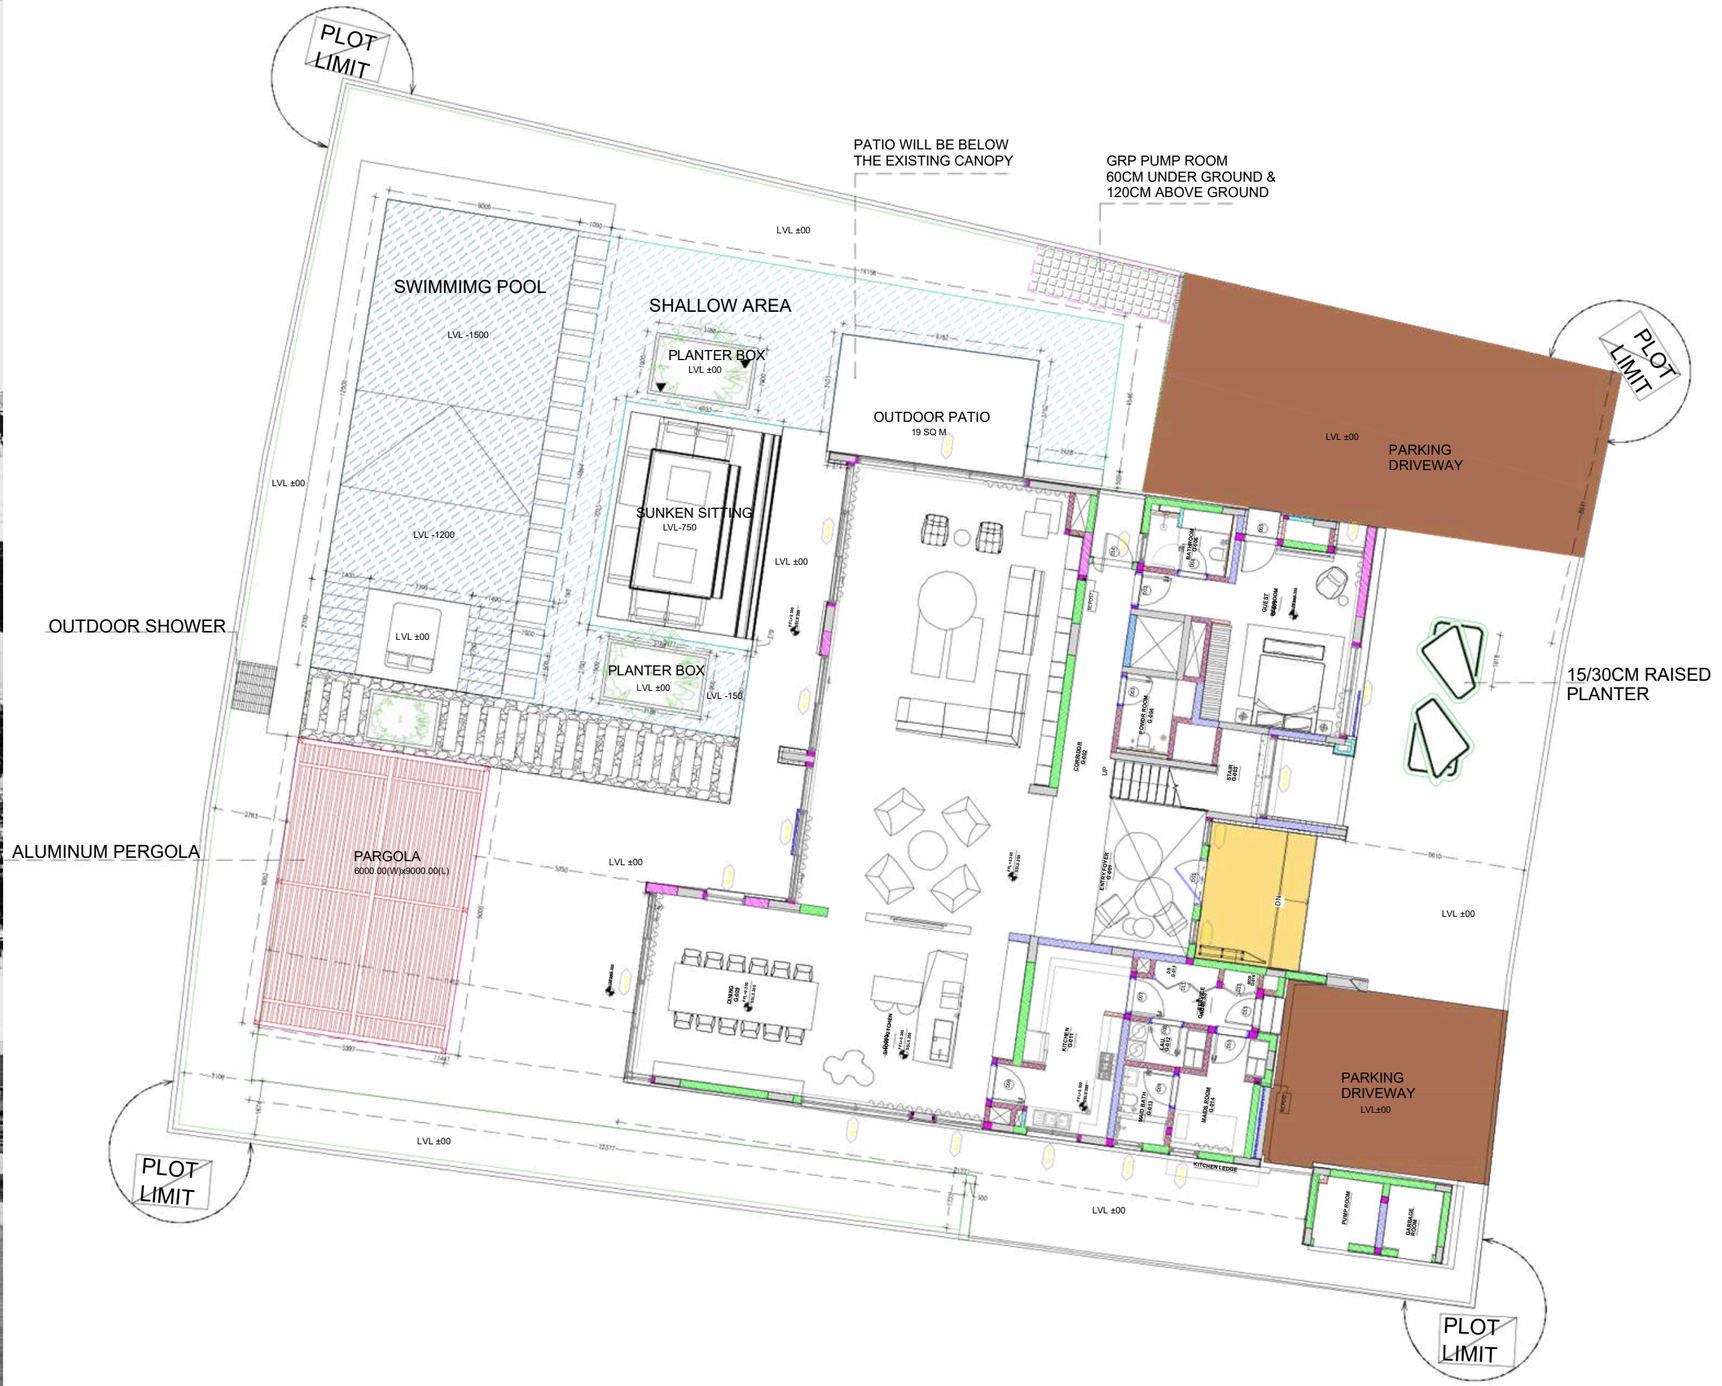

7.MAJESTIC VISTAS

1. Artistic Mosaic Swimming Pool
   - Custom Tile Artistry: The main swimming pool features vibrant custom mosaic tilework in organic shades of emerald green, azure, and turquoise, creating dynamic visual patterns beneath the water.
   - Integrated Shallow Deck / Sun Ledge: Includes a dedicated shallow area ideal for in-water lounging or sunbeds.
2. Floating Concrete Stepping-Stone Walkway
   - Architectural Separation: A grand sequence of oversized, linear concrete pavers elevated over the water creates a striking pathway through the pool area.
   - Dual-Zone Distinction: The walkway structurally separates the deep swimming pool zone from the surrounding shallow water features and lounge area.
3. Integrated Sunken Lounge & Water Feature Channels
   - Sunken Fire Pit / Seating Area: A terraced, multi-step sunken pit built directly adjacent to the villa floor-to-ceiling glass doors, creating a cozy gathering space surrounded by water.
   - Herringbone Shallow Water Channel: The surrounding shallow water feature features a distinctive light-teal herringbone tile pattern, contrasting beautifully with the deep pool tiles.
4. Sculptural Softscaping & Greenery
   - Bonsai Accent Trees: Featured sculptural clouds/bonsai trees planted inside integrated stone island planters within the water channel.
   - Perimeter Planting: Layered potted tropical shrubs, topiary trees, and snake plants along the privacy slatted fence line and stone perimeter walls to soften hardscape lines.
5. Premium Villa Integration & Finishes
   - Monochromatic Stone Finishes: Light-toned travertine/limestone pavers line the steps, decking, and copings to match the villa facade.
   - Indoor-Outdoor Seamless Transition: Positioned directly outside large sliding glass panels for an unobstructed view of the water features from inside the home.

7.HATTAN 3

1.1. Zen Courtyard & Sculpture Niche

- Central Focal Point: A serene white Buddha statue positioned perfectly framed within a arched dark wood lattice screen, providing an immediate sense of calm upon entering the courtyard.
- Textured Architecture: Off-white textured stucco pillars contrast with dark timber beams and slatted privacy panels, creating a clean geometric framework that lets sunlight filter through.
- Subtle Water Reflection: A sunken reflective pool lined with stacked stone coping sits at the base of the structure, adding sound and light play to the courtyard.

2. Private Outdoor Pool & Feature Wall

- Dark Tile Swimming Pool: A compact, elegant swimming pool lined with deep navy mosaic tiles, framed by clean cream-toned pavers.
- Artistic Feature Wall: The pool's backdrop features an architectural recessed arch framing a tall planter, flanked by stacked slate pillars and vibrant green cypress trees. A minimalist horse wall-art silhouette adds a touch of equestrian elegance.

3. Integrated Outdoor Shower Niche

- Natural Stone Cladding: A recessed outdoor rain-shower area clad in dark slate ledger stone, contrasted by beige travertine surrounds and dark floor tiles.
- Tropical Enclosure: Tucked amidst dense broad-leaf plants (Ravenala/Strelitzia) and vibrant pink climbing bougainvillea, offering an invigorating, resort-style outdoor bathing experience.

4. Organic Pathways & Softscaping

- Natural Stepping Stone Paths: Irregular organic limestone pavers set into lush green lawn guide guests effortlessly between zones.
- Tropical & Mediterranean Vegetation Palette:
  - Mature palm trees with white gravel tree rings
  - Broad-leaf tropical foliage (Birds of Paradise, Banana Palms)
  - Coniferous accent trees (Cypress) and potted cycads
  - Climbing flowering vines (Bougainvillea)
